

TALK

Tuesday 11th Feb 2014, 7.30pm
The Village Hotel, Pinehurst Road,
Farnborough GU14 7BF

AN RAE INVENTION: CARBON FIBRE

Dr Ervine Glenny, C.Eng. FIMMM

The talk will describe the nature of the invention and the key research workers involved in preparing and evaluating the properties of both the carbon fibres and of the composites made by incorporating the fibres in a resin matrix. It will further illustrate the outcome of the invention in the diverse applications of carbon fibre composites in sports goods and general industry as well as aerospace. Dr Glenny became Head of RAE's Materials Department in 1973, some 10 years after the invention of carbon fibre.
