“60 YEARS OF THE U-2”

Chris Pocock

The remarkable Lockheed Martin U-2 high-flying spy plane celebrated its 60th birthday in 2015. But today's U-2 is a fully modernised reconnaissance aircraft, capable of serving the U.S. and its allies for many years to come. In his talk, the speaker described by the CIA Historian as “today's foremost authority on the U-2 and its development” will outline its history, his flight in one of them, and his talks with hundreds of U-2 pilots, maintainers, managers and commanders.
